In The News

DAY WHEN RESERVATION IS MADE, MUST BE MADE AT THE TIME THE RESERVATION IS MADE, WITH THE EXCEPTION OF RESERVATIONS MADE BY TELEGRAPH OR TELEPHONE OR MAIL FROM OUTSIDE POINTS, WHERE TICKETS CAN NOT BE OBTAINED, ACCORDING TO INSTRUCTIONS RECEIVED TODAY BY PASSENGER OFFICIALS OF RAILROADS ENTERING INDIANAPOLIS.

APPLIES TO RAILROAD PARLOR AND SLEEPING CARS.

SAVING OF SPACE, IS AIM

Hereafter persons making railroad sleeping car and parlor car reservations must make them at the time the reservation is made, with the exception of reservations made by telegraph or telephone or mail from outside points where tickets can not be obtained, according to instructions received today by passenger officials of railroads entering Indianapolis.

It is the policy of the Pullman company, which is the largest of the railroads, to make reservations at the time the reservation is made, with the exception of reservations made by telegraph or telephone or mail from outside points where tickets can not be obtained, according to instructions received today by passenger officials of railroads entering Indianapolis.

If Sufficient Time. When reservations are made by telegraph, telegram or mail from outside points and there is sufficient time between the time the application is made and received and the leaving time of the train, application will be made to cover the space reserved and on receipt of the remittance, Pullman tickets will be mailed to the applicant. If after buying a ticket a passenger finds that he can not utilize the space reserved, he may exchange the ticket for another, but the exchange must be made where the ticket was issued.

Otherwise No Refund. Unless the space is released in this manner no refund will be made on tickets, except in the case of illness of passengers or when railroad connections are not made. Tickets sold for trains that are abandoned may be redeemed on presentation to the selling agent or to the general ticket agent.

Where the accommodations for which the ticket is sold are not available, the ticket may be redeemed by the selling agent, the Pullman conductor or the general ticket agent. Tickets which are bought for resale, it is announced, will not be refunded.

Vaudeville and Advertising. Features of advertising peculiar to the vaudeville business were discussed by C. K. Rottler, Eggleston, manager of Keith's theater, at the weekly noon luncheon of the Advertising Club at the Chamber of Commerce today.

Mr. Eggleston pointed out that inasmuch as the theatrical advertising business is an intangible article, not something that one can buy and take home with him, it differs from the other advertising mediums. The uncertainty as to acts the public will like and the time-honored custom of using photographs in theatrical advertising as factors which distinguish the theatrical advertising.

RAIL EMPLOYEES MAY BE DEFERRED CLASS
PLAN CONSIDERED BY WAR DEPARTMENT.

WASHINGTON, February 20.—Deferred draft classification for railroad employees is under consideration between the war department and the railroad administration, it became known today.

The war department objects to giving special consideration to railway employees as a class, insisting that the case of each man should be considered individually as to whether he is indispensable.

This policy does not satisfy the railroad administration, which contends that few railroad men are actually indispensable and that unless some uniform action is prescribed local exemption boards may be inclined to refuse deferred classification to thousands of necessary employees who have no dependents. Nearly 500,000 railroad men are within the draft age, and the number which would be affected by such a ruling is estimated at less than 30,000.

DRAFT ACTION DISCUSSED

Urges Doctors to Give Their Services to the Government
(Special to The Indianapolis News)

GARY, Ind., February 20.—(Special to The Indianapolis News.) Dr. J. E. Metcalf, of Gary, now in the medical officers' reserve corps, and formerly a prominent practitioner in Anderson, has sent from a Mexican border post an appeal to his fellow-doctors to give more of their numbers to the army.

The communication is addressed through the Indiana Medical Society. The doctor says: "The medical reserve corps and are in actual service is far below the percentage of most communities. The Indiana Medical Society, I hope, will make a list of a hardship for those who have already gone in as it would be for a doctor to be removed from his post in the army in the 30,000 a year, and we have all lived on a great deal less."

"Some of us seem to forget that in war we must sacrifice. Our sacrifice is greater than that made by the man who enlists as a private at \$30 a month. Nor does it compare with the sacrifice made by the many big men of affairs who have abandoned their private enterprises and given their services to the government at \$1 a year. It is much harder for these men to re-adjust their living to harmonize with the government's conditions."

"At this camp I do not believe there is a medical officer who as a civilian practitioner did not have an income of at least \$5,000 a year, and several of them have made \$10,000 a year. They are now in the service. The answer would not permit me to say that. That is the attitude of most of the medical reserve corps. They are patriotic men with red blood in their veins and willing to make the supreme sacrifice for their country."

"Many of us will probably not see service in France, then again we may. I have to be sent over here. I have made of the stay-at-homes to fill the vacancies. I hope it will never be necessary to draft any members of our society. The children of some of the men who should be in the struggle will in after years cause much embarrassment when they ask, 'Father, what did you do in the great war?'"

I feel that no able-bodied man is entitled to live in our country who is not fighting for it, unless clearly and honestly exempted. Those who are unwilling to take a chance with their own lives, or who are unwilling to help the government by other service, should at least render honest home service and contribute liberally in money.

The hundreds of thousands of boys actually in the fighting line, the boys who are willing to make the supreme sacrifice to preserve our institutions and our homes, need our medical and surgical skill. They do not hesitate. Why should we?

FINAL INSPECTION BEFORE BATTLE

THE FIELD ARTILLERY, U. S. A., WAS INSPECTED BY OFFICERS HIGH IN COMMAND OF OUR FORCES AT —, FRANCE, BEFORE TAKING UP A POSITION ON THE LORRAINE SECTOR.

FLORA—Mrs. W. E. Barnard, a painter of this place, the first man in the state to enlist in the United States public service reserve's shipbuilding arm, has received a letter of commendation from W. E. Squibb, Indiana director of the public service reserve. Mr. Squibb says Barnard deserves to rank with James Bethel Graham, of Evansville, who was one of the first three Americans to give their lives on the field of battle.

COATS for women and misses

\$4 to \$50
\$34.75

Every coat possesses that distinction and refinement of style—the conservative lines—that insure their correctness next winter.

Pom Pom Coats
Bolivia Coats
Silvertone Coats
Broadcloth Coats

The range of colors is wonderful—Pekin blue, beige, Burgundy, taupe, navy blue, mahogany, black, green and purple.

Some are handsomely trimmed with fur—others are plain tailored but very smart and stunning.

There are models with the high waisted effects—with the semi-flared lines—with the straight lines.

Up to \$50.00 coats. **\$34.75**
—Second Floor.

THE WM. H. BLOCK CO.

GRAIN TRAIN WRECKED.
Twelve Cars for Allies Go in Ditch, With \$250,000 Loss.

NEWBURGH, N. Y., February 20.—A twelve-car train laden with grain, consigned to the entente allies and having the right of way over passenger traffic, was wrecked today south of Marlborough with a property loss estimated at \$250,000. No one was injured.

The accident was caused by a rock, which slid down an incline just as the train was passing and lodged under the firebox of the locomotive. The train was derailed and the twelve freight cars were demolished, while the roadbed was badly damaged. The train was running on the West Shore railroad.

TO ADDRESS EMPLOYERS.
Judge William H. Spear, of New Jersey, Will Speak at Meeting.

William H. Spear, judge of the circuit court of Hudson county, New Jersey, will be the principal speaker at the annual meeting of the Associated Employers of Indianapolis on the evening of March 1, in the auditorium of the Odd Fellows building.

"Win the War" will be the general topic of the meeting, and the subject of Judge Spear's address will be, "The War and Industry." Members of the association and employees of their firms will be invited to attend the meeting. A short business session will precede the general meeting.

MENUS FOR HOT SCHOOL LUNCH IN MALNUTRITION WAR
For the purpose of combating the condition of malnutrition, which it is said has been made more acute by the war and has brought about a situation which is a national emergency, an organization has been formed at New York, known as the Food Scouts, the purpose of which is to show by practical means that every school child in the country has a right to have a properly balanced, nutritious, hot school lunch served in the school at cost. The experiment is now under way, conducted by the People's Institute Post-Graduate Hospital New York School Lunch Committee. Menus for three months were provided by Mary Rose Swartz Rose, of Columbia university and it is announced that they will be supplied free to any one in the United States who sends a self-addressed envelope to the Food Scouts Nutritional Committee, 70 Fifth avenue, New York. The menus used in the experiment from January 9 to January 18 inclusive were as follows, with the notations used at the time:

Menu
Barley Soup and Vegetables
Spaghetti and Cheese
Rye Bread and Nut Butter
Ice Cream and Cookies
Calories per boy—699

Receipt—Barley soup and vegetables: One-half pound lima beans, 6 ounces barley; One-half pound lima beans, 6 ounces barley; One-half pound lima beans, 6 ounces barley. 1 cup of tomato, 2 1/2 cups of water, sugar, salt and pepper.

Menu Suggestions.
Meat is high-priced. It is possible to plan a palatable and nourishing meal without meat. Cheese and lima beans have been used to supply the type of food value which boys ordinarily feel must be supplied by meat. The lima beans are a valuable source of protein and are also a source of iron. The cheese is a source of calcium and is also a source of protein. The combination of these two foods is a very good one. The addition of a little tomato and a little sugar and salt makes a very palatable and nourishing meal.

Menu
Cream of Cabbage Soup
Carrots and Peas
Peanut Butter Sandwich
Rice and Dates
900 Calories

Receipt—Cream of cabbage soup: Two small heads of cabbage, one and one-half cup of creamed sauce made of the following: One quart of milk, one-half cup of butter, one-half cup of flour, one-half cup of salt, and pepper. Boys from nine to twelve years of age need from 1,800 to 2,200 calories a day. This nourishing dinner furnishes almost half of the food needed during the day. They need a great deal of energy for healthy play, as well as for growth. Peanut butter, rice and dates are very nourishing and are emergency giving foods.

Meatless Day Menu.
Iron is necessary for good, healthy blood and growth. This is supplied in cabbage, peas, peanut butter, dates and whole wheat bread. Dates are not an extravagant food. There is as much food value for the money spent for dates as for prunes, and more than for apples. Whole wheat bread is a good meat substitute and takes the place of butter on bread.

Milk, such a necessary food for healthy boys and girls, is just as good when eaten in food. It is introduced in both the cabbage and the rice.

Whole wheat bread is used. Whole wheat bread is practically the whole wheat and contains more food value for the money than white bread—much better for boys who want to be strong and healthy. It is especially good for constipation, which often keeps people from being well.

War Diet.
Meat is necessary for every boy who would be healthy—its source served on the fish and in the cocoa.

Whole wheat bread has more food value than white bread. It has mineral matter which is necessary for good healthy muscles and strong bones. It is also good for constipation.

Miss Van Rensselaer Is Named.
ITHACA, N. Y., February 20.—Miss Martha Van Rensselaer, of the department of home economics, New York State college of agriculture, Cornell university, has been appointed head of the division of conservation of the United States food administration. Miss Van Rensselaer will assume her duties at Washington March 1. Her work will include the supervision of plans for conservation in homes in all the states of the Union.
